How We Care For Your Meat Cars

When you see a Swift Refrigerator Car going by in a train, it seems a simple thing that it should be carrying fresh meat up and down the country.

Like most of the packer activities which contribute to your welfare, you are so used to having this going on uninterruptedly, day in, day out, throughout the year, that you are likely to take it as a matter of course.

But it is not a matter of course. Every car you see going by means long hours of minute, scientific, painstaking care in preparation for what it is doing.

Every time a car comes in it is washed out thoroughly with scalding water. If any taint, any foreign matter, were present, this would get rid of it. Even the meat hooks are taken down from the racks and scalded with water and live steam.

When the car is thoroughly cleansed we put in 5,000 pounds of ice. But that is only preliminary. It only cools the car to the proper temperature. By the time the car is moved over to receive its load, this first ice is melted. More is then put in to keep the car cool.

Then the meat is hung on the sterilized hooks and the load of food is ready for its journey. It arrives as it leaves, clean, fresh, wholesome, appetizing; and your meat supply goes on unaffected by seasons or weather.

This is only a part of the service which Swift & Company furnishes, at a profit to itself so small—averaging a fraction of a cent per pound on all products over a period of years—that if the profit were handed on to the consumer, it would make a difference of less than a nickel a week in the meat bill of the average American family.

The Ladies' Aid meets in the basement of the church, Oct. 14.
 The Missionfest last Sunday was a success in every way. Our people were well represented in both services, and the collection for the synods treasuries was more than doubled over any previous year. The guests of the Ladies' Aid, who served a most bountiful, well-prepared and handsomely served chicken dinner, voted their hosts royal entertainers, and hope another invitation might be extended in the not too near distant future. The Ladies wish to thank all who helped them.

Hetzman of Emerson, the ceremony being performed by Rev. L. S. Slaybaugh. The ring ceremony was used. Following the wedding a delightful luncheon was served to the guests, fifty in number. Mr. and Mrs. Hetzman are spending their honeymoon in Detroit. Among those present were Mr. and Mrs. Van Rench and daughter, Onda, of Alma, and Mr. and Mrs. Otto Bartlett of Alma.

GRIP

Grip usually starts just the same as a cold with a watery discharge from the nose. You are much more likely to contract the grip when you have a cold. For that reason when grip is prevalent you should go to bed as soon as you feel that you are taking cold and stay in bed until fully recovered which should not be long if you take Chamberlain's Cough Remedy. Three days in bed now is better than three weeks later on.—adv.-68-4t.
